Is The Best It Is Possible To Produce

In every industry, there are tirms who lack the originality and the business foresight of selling their goods through good constructive argument. They believe, apparently, so little in the superior ment of their own productions, that they resort to fault-finding with their competitor's wares.

Luck is Largely a Matter of YOU? We had a man come to us the other day wanting some Nitrate of Soda to put out right now. We believe in letting a customer decide for himself what soft of fertilizer materials he should use, but we intimited that his should use Grange Mixture for the first application, and then later on, if he found his crop no ded it, he might put on an application of quick This did not suit him, his idea, he said, was to use the intrate now and let it push acting nitrate. lus cotton crop forward so he wouldn't have to work it!

If he follows that plan, when he goes to gither his crop next fall-tuck is goin; to be against The more festilizers on put ander your crop, the more you ought to work it. Isa't it foolishness to raise 500 p minds of sec I cotion to the errowhen you might taise twice as much? Are you a woman?. Then you are subject to a large number of troubles and irregularities, peculiar to women, which, in time, often lead to more serious trouble.

A tonic is needed to help you over the hard places, to relieve weakness, headache, and other unnecessary pains, the signs of weak nerves and over-work

For a tonic, take Cardin, the woman's tonic
You will never regret it, for it will acrtainly help you.

I love the rooster for two reasons: One is his crow, and the other is because he has the spurs to back up that crow.

Our modesty prevents our crowing, but if ever a store had the right to crow we have won it this scason.
